Why is tenants' or "renters" insurance important?

- **Contents Coverage:** If there were to be an unexpected loss without an insurance policy in place, there would be no coverage for your contents as a tenant.
- **Liability Coverage:** If a loss to the building were to occur, and you as a tenant were to be found legally liable for damages, there would be no coverage without the tenant's policy.
- **Additional Living Expenses:** If a loss occurs that causes the dwelling to not be livable, (fire or smoke damage for example), this coverage will pay for any additional living expenses during the time of loss.
